DETAILED ACTION

Prior Art Citation

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.

Lee et al. (6,359,845), Kim et al. (6,590,851), Matsuzaki et al. (6,650,612) and Uchizaki et al. (6,728,193), all disclose an optical disk apparatus having plural light sources of different wavelengths, plurality light detectors corresponding to the different light sources, and collimating and objective lens for focusing the beam different recording medium.

Allowable Subject Matter

The following is a statement of reasons for the indication of allowable subject matter:

The prior art of record alone or in combination does not teach or suggest the optical storage device having the combination of elements with their recited structure and arrangement, along with the specific structure and arrangement of the first and second collimating lens, second optical element, aperture limiting member, Plano-concave reflecting mirror, Plano-convex reflecting mirror and positioning of the second light emitting element, as set forth in the claims, and as discloses in the specification.
